

FURNITURE MEASUREMENT GUIDE

To ensure proper fit, decide if you will cover the furniture with or without cushions.

- A. Height: measure from the ground to the top of frame or cushion.
- B. Arm or Seat Height: measure from the ground to the top of the arm, seat, cushion, or highest point on front.
- C. Length: Depth on frame or if the cushion is longer.
- D. Width or Diameter: Breadth of the frame or diameter if the frame is round.
- E. Front Width: Breadth of the frame in front, if different than D.

Note:

Not all pieces will have all five dimensions. Please give us everything you can. We will contact you with questions prior to production and after approval of the price quote.
